**For Immediate Release**

**Sewer Construction Update & Saturday Work**

Chatham – Robert B. Our Co., and Lawrence Lynch Co. have resumed work related to the sewer construction project begun last spring. Work this fall involves roadway restoration/paving and general cleanup/restoration and will take place over several weeks, weather permitting.

Full width roadway reclamation began this week affecting the following roads: Absegami Run, Oyster Bluff, Oyster Pond Lane, Shattuck Place, The Cornfield, Wheldon Way, Jane's Way and Earl's Way. Once reclamation is completed the roads will receive a binder course of paving. Trench restoration will begin Monday, 10/22, affecting Village Landing, Spinnaker Lane Independence Lane, and Inlet Road with the binder course being installed each day.

The top course of paving will likely wait until all roads have received the binder course of paving.

Roads will be passable at the end of each day. Police Details and Contractors will work with residents to ensure their needs for access are addressed.

Lawn restoration, etc. will take place following the top course of paving.

Police Details and signage will be in-place to assist motorists in reaching their destination.

Normal work hours are 7 AM to 5:00 PM Monday to Friday, weather permitting. Work will take place on Saturday, October 20th from 7 am to 3:30 pm.

We encourage you to visit the sewer construction project web site for updated schedule information at: <http://www.chathamscproject.info> and the Town's website for additional information regarding the CWMP and other important projects and events in the Town at: <http://www.chatham-ma.gov>.

Thank you for your patience and cooperation during this important project to restore and protect our environment.
